PLENARY SCHEDULE OVERVIEW

Welcome to the One Health Mediterranean Conference Plenary Sessions.

Our program is organized into four insightful streams, each addressing critical aspects of global health and well-being. These streams feature sessions led by experts in their respective fields, covering a wide range of topics.

Explore our schedule to get the most out of this event!

PLENARY SCHEDULE OVERVIEW

STREAM 1: One Health: Holistic Aspects

This stream emphasizes the importance of collaboration between various disciplines to achieve a holistic approach to health challenges. Sessions within this stream will discuss initiatives, strategies, and global efforts to promote the One Health approach.

SESSIONS: (3) One Health Initiatives - One Health & Environment - Sustainable Food Security.

STREAM 2: One Health, One institution

This stream is dedicated to exploring the synergies between veterinary and human medicine and surgery techniques. By fostering collaboration and interdisciplinary approaches, this stream aims to advance the field of health care. In addition, it will discuss the role and importance of One Health institutions in promoting holistic health care practices.

SESSIONS: (2) One Medicine - One Health Institutions.

STREAM 3: Environment & Food Security

This stream focuses on the dynamic intersection of digital health and the pursuit of healthier urban environments. This stream acknowledges the profound impact of the environment on our health and well-being and explores the innovative technologies that are transforming healthcare in urban settings.

SESSIONS: (2) Digital Health - Healthy Cities.

STREAM 4: Emerging diseases & AMR

Emerging Diseases and AMR Stream delves into the complex world of infectious diseases, and antimicrobial resistance. It provides a comprehensive platform for understanding and addressing the challenges posted by these issues.

SESSIONS: (4) Infectious Diseases - Antimicrobial Resistance - Emerging Diseases- Mediterranean Anemia.
